World-Class Cardiac Services

Right here in Georgia

- Only program in Georgia and third in the nation to be awarded disease-specific **"Gold Seal Certification"** by The Joint Commission for coronary artery bypass, heart valve repair and replacement and heart failure.
- WellStar Cobb, Douglas and Kennestone Hospitals are all accredited by the **Society of Chest Pain Centers**, a recognition for facilities that quickly diagnose cardiac patients, begin treatment within minutes and significantly improve the chance of a positive outcome.
- A cardiac surgery program that specializes in innovative, cutting-edge procedures like the minimally invasive **Transcatheter Aortic Valve Replacement.** *(WellStar Kennestone Hospital was the first non-academic facility in the state to perform the procedure.)*
- The first and most experienced system in Georgia to offer **Convergent Ablation**, a minimally invasive approach to restore a normal heart rhythm in patients with persistent atrial fibrillation.
- An outpatient hospital-based **Heart Failure Clinic** where patients can be seen when experiencing heart failure symptoms, potentially avoiding the ER and hospitalization.

WELLSTAR®
